STERN'S NURSERIES

GENEVA, NEW YORK

PLANTING SEASON

Spring Planting Time begins around the middle of March and continues throughout April and early May.

Fall Planting Time begins in October and continues throughout November.

Please send in your order as soon as you receive this catalog. We will ship at proper planting time.

CORTLAND APPLES.

Please read this helpful information before sending in your order.

DWARF FRUIT TREES

Dwarf Fruit Trees are ideal ornamental plants, combining beauty and utility in a most delightful way. It is a pleasure to watch these small trees when they are covered with beautiful blossoms in the spring, and when they are loaded with delicious fruit in the fall. They thrive in any average soil and begin to bear a few years after planting.

We are one of the few nurseries supplying true Dwarf Fruit Trees budded on dwarfing rootstocks which insure dwarf habit and early yields. Dwarf Apples are grown on famous Malling rootstocks Type 1, Dwarf Pears on Quince of Angers rootstocks. Please note carefully: The bud union or collar, which can be easily recognized just above the root, must remain at least 2 inches above ground level, after the planting is completed. If the collar is buried, the budded portion of the tree may develop roots and the dwarfing effect of the rootstock will be lost.

Our supply on Dwarf Fruit Trees is limited and it will be exhausted before the end of the season. We suggest that you send in your order at the earliest possible date.

QUICK CROP SIZE FRUIT TREES

Quick Crop Size Fruit Trees are the cream of the crop of standard trees. They are exceptional trees, outstanding in size and vigor, with an extremely heavy root system, eager to grow and to bear. Not more than 15 or 20 trees make this grade among a thousand trees of normal size. Please send in your order for Quick Crop Size Fruit Trees as early as you can. The supply is extremely limited.

WHAT TO PLANT: DWARF OR STANDARD FRUIT TREES?

Dwarf Fruit Trees should be preferred where space is limited. They are the ideal garden-type of tree for city and suburban homes while Standard Fruit Trees should be planted where sufficient space is available.

BEST SIZE OF FRUIT TREES TO PLANT

Our experience leads us to advise you to plant the top grade. It pays better to plant a few large trees instead of twice as many smaller trees.

Fruit Trees are an investment for decades, and sometimes for generations. The purchase price means very little if you realize that the first bushel of fruit will pay for it.

We list smaller grades for the convenience of customers in rural areas where no express service is available. Only trees up to 4 to 5 ft. can be sent by parcel post. Larger trees are sent by express.

HOW TO SELECT VARIETIES SUITABLE FOR YOUR LOCATION

Practically all of the varieties listed in this catalog can be grown successfully in middle-eastern and middle-western states such as New York, Pennsylvania, Ohio, including sections as far south as Virginia or Kansas, as far north as Massachusetts or Michigan.

Be sure to read notes about pollination which you will find on every page listing fruit trees. A well drained, fertile soil is essential to obtain maximum results from your investment on fruit trees and berry plants. If your soil is poor, apply Ra-Pid-Gro. Turn to page 4 for information.

WHAT TO PLANT IF YOU LIVE IN THE NORTH

If you are located far north, including sections like Maine, New Hampshire, Vermont, Adirondack region of New York State, northern Michigan or northern Wisconsin, you will find that only the hardiest varieties will thrive, such as Cortland, Early McIntosh, Northern Spy, Red Astrachan, Red McIntosh, Wealthy and Yellow Transparent in Apples; Seckel, Cayuga and Kieffer in Pears; Abundance and Burbank in Plums.

Sour Cherries, Crab Apples, Bush Cherries, Gooseberries, Currants, Asparagus, Blueberries, Strawberries and Rhubarb will thrive, but you may find it difficult to grow Peaches, Apricots, Sweet Cherries, Quinces or Nuts in the North. Plant Latham, Morrison and Sodus in Raspberries because of their hardiness. Plant Fredonia and Portland in Grapes because they are the earliest to ripen.

STERN'S NURSERY STOCK

Our trees and plants are grown in the rigorous climate of western New York State. They are carefully dug with special power diggers, so that all the root system—even the fibrous feeder roots—are completely intact. Packed in damp peat moss and cedar shavings, then covered with a waterproof wrapper, they are guaranteed to reach you in perfect condition.

HELPFUL PLANTING BOOKLET—FREE

A booklet, which describes in a clear and simple way how to plant, accompanies every shipment.

HOW TO ORDER

Please use the enclosed order blank. There is no charge for packing. If you want us to prepay postage or express, please add 10% to the total of your order. Add no postage for Ra-Pid-Gro, Strawberries and Group Offers marked "Postpaid." Send your remittance with your order or we will ship C. O. D. if desired.

As a special service to our customers, we have enclosed an order blank for subscription of magazines containing many excellent articles on gardening such as Flower Grower, American Fruit Grower, Farm Journal, and Country Gentleman, also other popular magazines to which you may want to subscribe at these attractive rates.

A 4 year old Cortland Dwarf Apple Tree loaded with delicious fruit.

ORCHARD TESTS REVEAL

DWARF FRUIT TREES

Yield 1000 pounds of fruit within 10 years.

Amazing return on small investment! Trees in trial orchard at Geneva bear up to 1077 pounds of very large Apples only 9 years after planting. Many produce 50 pounds of fruit within TWO years!

IDEAL ORNAMENTAL TREES FOR SMALL HOMES

Combine beauty with utility. Trees are 10 to 12 ft. high at maturity. Thrive in ordinary garden soil. Covered with beautiful, fragrant blossoms in Spring—loaded with delicious fruit in the fall. Plant 2 or more varieties for pollination.

DWARF FRUIT HOME ORCHARD (Group No. 900)

2 Dwarf Apple Trees, 2 year, 4 to 5 ft. (1 Cortland, 1 Red McIntosh).

2 Dwarf Pear Trees, 2 year, 3½ to 4½ ft. (1 Bartlett, 1 Clapp's Favorite).

Total 4 Dwarf Fruit Trees for Small Space and Early Crops, for only \$13.00.

Healthier plants - heavier crops

are guaranteed results from

RA-PID-GRO

Most soil is deficient in one or more of the natural food elements for plant life. Seldom, therefore, are maximum results obtained from the gardener's investment in trees, plants, time and space. Here is a new, safe, easy-to-use liquid plant food that is unconditionally guaranteed.

WHAT IS RA-PID-GRO? It is a complete, concentrated plant food formula. It contains thirteen distinct food elements—no inert matter or waste. Dissolved in water, it goes direct to the roots, cannot burn.

EASY TO USE. One pound of RA-PID-GRO makes 22 gallons of liquid fertilizer, with water added. One teaspoonful makes a quart. Feed directly to plants according to simple instructions on bag. No heavy sacks to handle; no spreader needed, no danger of burning.

WORKS "MIRACLES:" Plants that are fully fed thrive beyond all expectation. Positive results from RA-PID-GRO are visible in a few days during the season of growth. "Wonderful" . . . "Outdoes any

fertilizer I have ever used" . . . "Thanks a million!" say users of RA-PID-GRO.

COSTS LESS: One pound of RA-PID-GRO makes 176 lbs. of liquid plant food. One pound of concentrated RA-PID-GRO contains all the essential food elements found in 100 lbs. of ordinary fertilizer. For actual nourishment the plant gets, it is the most economical of all.

FEEDS ALL PLANTS: RA-PID-GRO promotes rapid and healthy growth of **all types** of plants. Use it on lawns; around trees; evergreens; shrubs; roses; perennials; vegetables and house plants.

SAVES "DYING" TREES, SHRUBS: Many plants given up for dead will respond to applications of RA-PID-GRO. Saves its cost hundreds of times over on valuable trees and shrubs!

GUARANTEED! Test RA-PID-GRO at our risk! If you are not wholly satisfied, your money will be refunded. **USE IT REGULARLY — FOR BETTER FRUITS, MORE BEAUTIFUL PLANTS!** Keeps indefinitely in dry storage.

COMPLETE DIRECTIONS FOR USE ON EVERY PACKAGE.

2 lbs. - \$2.35

5 lbs. - \$4.50

10 lbs. - \$8.75

STERN'S MINIATURE ORCHARD (Group No. 901)

Here is a collection of Fruit Trees which should be planted where space is limited. They make small trees and they usually begin to bear the second or third year planted. Varieties listed in this group are self-fruitful.

1 Dwarf Apple (Baldwin), 4 to 5 ft.

1 Dwarf Pear (Duchesse d'Angouleme), 3½ to 4½ ft.

1 Standard Peach (Redhaven), 5 to 6 ft.

1 Standard Cherry (English Morello), 4 to 6 ft.

Total 4 Fruit Trees for Small Space and Early Crops, only \$10.00.

PEACHES are most delicious when you eat them fresh from the tree.

PEACHES

All of our Peaches are self-fruitful. Any one variety planted by itself will bear heavy crops. Plant trees 15 ft. apart. Peaches should be planted in 1-year-old trees only to insure satisfactory results. Months after name of variety indicate the time of ripening.

	Each	Per 3	Per 10
Standard Trees, 1 year, 6 to 7 ft. (Elberta, Golden Jubilee, Hale Haven) QUICK CROP SIZE.....	\$ 2.50	\$ 7.20	\$23.00

BELLE OF GEORGIA. Late September. Large, attractive, white-fleshed Peach. Hardy and productive. Freestone.

ELBERTA. Late September. The greatest commercial variety on the market. Will thrive where any Peach can be grown. Large, yellow, juicy. Freestone.

GOLDEN JUBILEE. Early September. Large, yellow, tender, juicy and sweet. Freestone. Tree unusually hardy.

HALE-HAVEN. Mid-September. A promising new variety. Large yellow, very attractive, of good quality. Freestone.

REDHAVEN. Late August. A new Peach. Ripens a month before Elberta. Red with yellow background, flesh yellow. Freestone. Skin almost fuzzless. Bears heavy crops.

PEACH TREE COLLECTION (Group No. 902)

6 Peach Trees, 6 to 7 ft. QUICK CROP SIZE. (2 Elberta, 2 Golden Jubilee, 2 Hale Haven) for only \$14.00.

APPLES

Most varieties of Apples require cross-pollination to insure satisfactory crops. Plant at least two different varieties. Baldwin and Rhode Island Greening are the only varieties which bear if one of them is planted by itself. However, even these two Apples will bear better crops if you plant a second Apple tree for cross-pollination. Plant Standard Apple trees 30 ft. apart, Dwarf Apple trees 15 ft. apart. Months after name of variety indicate the time of ripening in storage.

- BALDWIN.** November-May. A leading commercial sort in New York and New England. Large, bright red. Tree vigorous and productive.
- CORTLAND.** November-February. A comparatively new Apple that combines the flavor of McIntosh, and the ability to stand handling of the Baldwin.
- EARLY MCINTOSH.** August. This Apple with its pleasing taste and appearance is very similar to Red McIntosh. Bright red, flesh juicy with a sprightly sub-acid flavor.
- JONATHAN.** November-March. A beautiful red Apple. Flesh yellow, crisp, tender, and juicy, with a pleasantly acid flavor.
- NORTHERN SPY.** November-April. Large red and yellow Apple of fine quality. Leading commercial sort. Tree slow in coming into bearing.
- RED ASTRACHAN.** August. Handsome deep crimson Apple, excellent for cooking. Hardy and a good bearer.
- RED DELICIOUS.** December-February. One of the finest Winter Apples. Dark red with crisp, fine grained flesh of excellent flavor. Hardy, vigorous, and annual bearer.
- RED MCINTOSH.** October. A leading commercial sort for New York and New England. A very attractive red Apple of the highest quality. Hardy, bears young and annually.
- RHODE ISLAND GREENING.** November-March. Large yellowish green Apple of fine quality. An abundant yielder and excellent keeper. Good for cooking.
- STAYMAN'S WINESAP.** December-April. Winesaps prefer a long season. For this reason we recommend their planting in Southern gardens. The fruit is yellow striped with red, and the flesh has a pleasing flavor. Trees start bearing annual crops at an early age.
- WEALTHY.** October-January. Beautiful, brilliant red Apple of fine quality. Exceptionally hardy and an early bearer.
- YELLOW DELICIOUS.** October-March. Golden yellow Apple, large, juicy, and exceptionally fine quality. This is the finest yellow Apple. Bears young and heavily.
- YELLOW TRANSPARENT.** August. Early yellow Apple. Excellent flavor. Trees hardy and abundant bearers.

QUINTUPLET APPLE TREES

5 KINDS OF APPLES ON A SINGLE TREE!

Red Apples, yellow Apples, striped Apples growing on the same tree.

5 varieties of Apples that ripen in succession from summer through winter.

ENJOY THE FINEST TASTING VARIETIES—Baldwin, Jonathan, Red Delicious, Red McIntosh, Yellow Delicious.

QUINTUPLET APPLE TREES are splendid for small gardens where there is room for only one Apple tree. They make beautiful big shade trees. They are self-pollinating.

STRONG, STURDY TREES, 3 year, 5 to 7 ft., QUICK CROP SIZE

Each \$3.50

Per 2 \$6.50

Per 5 \$15.00

WINDSOR CHERRIES. They are abundant bearers.

CHERRIES

Sweet Cherries need cross-pollination to insure satisfactory crops. Plant at least two different varieties. Sour Cherries are self-fruitful. Plant Sweet Cherries 30 ft. apart, Sour Cherries 20 ft. apart. Months after name of variety indicate the time of ripening.

	Each	Per 3	Per 10
Standard Trees, 1-2 year, 4 to 6 ft.....	\$ 2.50	\$ 7.20	\$23.00

BLACK TARTARIAN. Early July. Sweet, bright purplish-black. Juicy and rich. An immense bearer.

EARLY RICHMOND. Late June. The earliest sour Cherry, dark red. Fruits soon after planting and bears heavily every year.

ENGLISH MORELLO. Late July. Late sour Cherry, good size, almost black and sprightly acid. Tree bears young and heavy. Hardy for extremely cold latitudes. Low growing like a dwarf tree. Plant the English Morello if your space is limited.

MONTMORENCY. Mid-July. The leading sour Cherry, and the best pie Cherry. Fruit is good-sized, fine flavored and bright, clear red.

NAPOLEON. Early July. Sweet, large, pale yellow with bright red cheek.

SCHMIDT'S BIGARREAU. Mid-July. Sweet, almost black, very juicy. This is one of the largest of our Oxheart Cherries.

WINDSOR. Late July. A dark red Oxheart Cherry, very large, sweet, firm and rich.

OXHEART CHERRY COLLECTION (Group No. 903)

2 Black Oxheart Cherries (Black Tartarian, Schmidt's Bigarreau)

1 Red Oxheart Cherry (Windsor)

1 Yellow Oxheart Cherry (Napoleon)

4 Oxheart Cherry Trees, 4 to 6 ft., for only \$9.50.

PEARS

Most Pears need cross-pollination for best results. Plant at least two different varieties. Bartlett and Seckel do not cross-pollinate. Any other variety will pollinate them. Duchesse d'Angouleme is self-fruitful. Plant Standard Pear trees 20 ft. apart, Dwarf Pear trees 15 ft. apart. Months after name of variety indicate the time of ripening.

	Each	Per 3	Per 10

BARTLETT. September. The leading commercial Pear, and the best for canning. Tree bears abundantly. Fruit golden yellow, flesh tender and juicy, with a delicious musky flavor.

BEURRE BOSCH. November-December. Very large, gourd-shaped Pear. Brownish yellow in color. White flesh, rich and delicious. Tree very productive.

CAYUGA. September-November. A new Pear, originated at New York State Experiment Station, Geneva, N. Y. Averages as large as Bartlett, and possesses a delectable flavor. The quality is better than any other Pear except Seckel, its parent.

CLAPP'S FAVORITE. August-September. Large yellow Pear, fine texture, melting, with a rich, sweet, delicate flavor. Tree hardy and very productive. Thrives where other varieties fail.

DUCHESSE d'ANGOULEME. October-November. Excites admiration because of its enormous size and quality. Bears early and abundantly. Blight resistant.

GORHAM. September. A new variety. Fruit resembles Bartlett, but ripens 2 weeks later and keeps better. The tree is notably resistant to blight.

KIEFFER. November-Spring. Large yellow Pear. Flesh very juicy, with a musky aroma. If stored in a cool place will keep until June.

SECKEL. August-October. A delicious little Pear that is the standard of excellence in its class. Brown with red cheek. Very productive.

SHELDON. October. Large, yellow fruit with russet skin and red cheek. Flesh melting and juicy, flavor sweet and highly perfumed.

THE HOME ORCHARD (Group No. 904)

This collection will yield an ample supply of fruit for an average family.

4 Apples (Cortland, Red Astrachan, Red McIntosh, Rhode Island Greening), 6 to 7 ft. QUICK CROP SIZE.

3 Pears (Bartlett, Clapp's Favorite, Gorham), 6 to 7 ft. QUICK CROP SIZE.

3 Cherries (Black Tartarian, Montmorency, Napoleon), 4 to 6 ft.

2 Plums (Reine Claude, Italian Prune), 6 to 7 ft. QUICK CROP SIZE.

3 Peaches (Elberta, Golden Jubilee, Hale Haven), 6 to 7 ft. QUICK CROP SIZE.

Total 15 Standard Fruit Trees, for only \$32.00.

NEWBURGH RASPBERRIES (Actual Size).

RASPBERRIES

GUARANTEED TO GROW AND TO BEAR

Our 2-year-old, Transplanted Raspberries are beautiful heavy plants. They yield big berries—make mouth-watering pies, short-cake, jams, juice. Raspberries are self-fruitful. Plant them 3 ft. apart in rows 6 ft. apart. **ALL OF OUR RASPBERRY BUSHES ARE GUARANTEED TO GROW AND TO BEAR.**

	Per 10	Per 25	Per 100

CUMBERLAND. Black. A heavy yielder of large, firm berries of delicious flavor.

INDIAN SUMMER. Red. Everbearing Raspberry. The Summer crop ripens in July. The Autumn crop starts early in September and continues until freezing. Flavor and quality are excellent.

LATHAM. Red. Large, round, a perfect variety for canning. Hardy in coldest sections.

MORRISON. Black. A wonderful new variety. Enthusiastic reports are received of Morrison berries averaging almost 1 inch across.

NEWBURGH. Red. The fruit is very large, very firm, and does not crumble. The weight of the fruit is so great that the canes are often bent to the ground.

SODUS. Purple. Fruit large, firm, does not crumble. Possibly most productive of all.

FAMILY RASPBERRY GARDEN (Group No. 905)

This berry garden will bear fruit the first year planted. A full crop of berries can be expected the following year and for many years to come.

10 Everbearing Indian Summer Red Raspberries

10 Morrison Black Raspberries

10 Sodus Purple Raspberries

**Total 30 Berry Plants, 2 year, Transplanted, QUICK CROP SIZE,
for only \$8.00 Postpaid.**

PLUMS

All of our Plums are self-fruitful except for Abundance and Burbank. These two varieties pollinate each other. Plant Plum trees 20 ft. apart. Months after name of variety indicate the time of ripening.

	Each	Per 3	Per 10
Standard Trees, 2 year, 6 to 7 ft. (Abundance, Bradshaw, Italian Prune, Reine Claude) QUICK CROP SIZE.....	\$ 2.50	\$ 7.20	\$23.00

ABUNDANCE. August. Fruit large, bright cherry red. Flesh juicy and tender. Freestone. Excellent for canning.

BRADSHAW. September. Large, dark violet red Plum of excellent quality and attractive color. Tree bears regularly and heavily.

BURBANK. August. Dark red, unsurpassed for beauty and productiveness. Bears very young.

ITALIAN PRUNE. September. Dark purple, juicy, delicious. Freestone.

REINE CLAUDE (Green Gage). September. Large, pale yellow, marked with red. Good bearer. The finest Plum for eating and canning.

SHROPSHIRE DAMSON. October. A medium size dark purple fruit produced in thick clusters. The tree is enormously productive, bearing a load of fruit annually.

STANLEY PRUNE. September. Large, dark blue, juicy and sweet. The tree comes into bearing young, bears annually, and the fruit stays on the tree in good condition for a long while.

GRAPES

No matter how small, no garden should be without a vineyard. Grapes require very little space—pay huge dividends in delicious, vine-ripened fruit plus magnificent beauty. Delight your family with bunches of sweet ripe Grapes at every meal while in season. Enjoy their delicious flavor all through the year in jams, jellies, wines.

Plant early ripening Grapes such as Fredonia and Portland if you are located far north where late varieties do not mature. Delaware and Golden Muscat are good wine grapes.

Plant Grape vines on a warm spot, such as a side of a building or board fence. The additional heat of such a side will help to mature your Grapes better, especially late varieties such as Caco and Golden Muscat. All of our Grape vines are self-fruitful. Plant them 6 ft. apart.

Our 3-year-old Grape vines are exceptionally beautiful plants. They were loaded with fruit last summer.

AGAWAM. A large red Grape with rich, aromatic flavor.

CACO. This Grape is fast becoming a favorite. It yields astonishing harvests; large bunches of enormous gleaming Grapes, deep red. Their flavor is exceptional, sweet, and refreshing.

CONCORD. The leading commercial Grape, ripening about September 15. Color blue-black. Bunches and berries large. Excellent for Grape juice.

DELAWARE. Berries are small, light red, unusually sweet and delicious. An excellent table Grape, and unsurpassed for making wine. Ripens a few days before Concord.

FREDONIA. This is our earliest Grape of the Concord type, ripening 15 days earlier than Concord. Color is blue-black, berries and clusters are large.

NIAGARA. The most popular white Grape with large bunches and berries.

PORTLAND. An early white Grape. It contains much sugar and can be eaten before it is fully ripe. Berries are large and quality is excellent.

STERN'S GOLDEN MUSCAT. Clusters of immense size, up to 2 pounds, and very similar to California Grapes. Berries are large, a beautiful light golden color, sweet, vinous, with a fine muscat aroma.

THE HOME VINEYARD (Group No. 906)

8 Grapes, Strong Vines, 2 year, No. 1 (1 of each variety)
for only \$5.00 Postpaid.

STERN'S GOLDEN MUSCAT, a Wonderful Grape. Strong Vines, 2 for \$2.80, 10 for \$12.00.

APRICOTS AND NECTARINES

Apricots need cross-pollination. Plant two different varieties to insure satisfactory crops. Nectarines are self-fruitful. Plant them 15 ft. apart. Months after name of variety indicate the time of ripening.

	Each	Per 3	Per 10
Standard Trees, 2 year, 6 to 7 ft. (Apricots only)

---	-------------	-------------	--------------

EARLY GOLDEN APRICOT. July. Oblong, with orange-yellow skin, spotted with red. A hardy tree and good bearer.

MOORPARK APRICOT. August. Deep yellow with red cheek. Has the highest quality and finest flavor of all Apricots.

BOSTON NECTARINE. September. Bright yellow, Apricot-like flesh, pleasantly flavored. Skin smooth, deep red.

SURE CROP NECTARINE. August-September. The fruits are as large as good-sized Peaches, white, and overlaid with very attractive red.

CRAB APPLES

Crab Apples are self-fruitful. Plant them 30 ft. apart.

	Each	Per 3	Per 10
Standard Trees, 2 year, 5 to 6 ft.....	\$ 1.75	\$ 4.80	\$14.00

DOLGO. September. Fruit red, jellies easily, and makes a rich, ruby red jelly of excellent flavor. Bears young and heavily. The tree has a striking appearance with its profusion of blossoms in the Spring and its brilliant crimson fruit in the Fall.

YOUNG AMERICA. September. Produces abundantly attractive red fruits of excellent size and quality. Jelly made from the fruit is a clear, beautiful red.

QUINCES

Quinces are self-fruitful. Plant them 15 ft. apart.

	Each	Per 3	Per 10
Standard Trees, 2 year, 4 to 5 ft.....	\$ 2.25	\$ 6.30	\$19.00

ORANGE. September. Bright golden yellow, of excellent quality. Delicious for jelly, jam and marmalade. The tree is dwarfish in growth, an early bearer, beautiful in the Spring, when covered with large, silvery pink blossoms, and in the Fall when loaded with golden fruit.

BUSH CHERRIES

These are attractive ornamental shrubs which produce edible fruit. However, the fruit cannot be compared with Standard Cherries with regard to their quality.

Bush Cherries are extremely hardy and bear fruit soon after planting. Plant 2 or more for cross-pollination. Plant them 4 ft. apart.

	Per 2	Per 10	Per 25
Strong Plants, 2 year, 2 to 3 ft.....	\$ 1.80	\$ 8.00	\$18.00

ROCKY MOUNTAIN CHERRY. Fruit is sweet, purple black, up to 1 in. in diameter, shaped like a Plum. The bush is low and spreading, and bears well in poor soil. Rarely growing over 5 ft. in height.

FIGS

We do not encourage general planting of Fig trees because their hardiness is limited to southern states. However, if you have a well protected, warm and sunny place and if you are prepared to give suitable winter protection, you might be able to grow them successfully as far north as Boston, Mass., or Detroit, Mich.

	Each	Per 3	Per 10
Strong Plants, 2 year, 3 to 4 ft.....	\$ 2.00	\$ 5.70	\$16.00

BROWN TURKEY. An early variety. Has the habit of bearing on new wood the first season.

JERSEY BLUEBERRIES (Actual Size).

BLUEBERRIES

Blueberries have special soil requirements and are not adapted to so wide a range of soils as are the other fruits. Soils for Blueberries should be loose in texture, well supplied with organic matter, and acid. If your soil does not meet these requirements this condition may be created by mixing with the surface soil a liberal quantity of peat moss, partially rotted leaves, pine needles, or sawdust.

Our 3-year-old Blueberry plants usually bear some berries the first year planted. They last a lifetime. Plant 2 or more different varieties for pollination. Plant 4 ft. apart.

	Per 2	Per 10	Per 25
Strong Bushes, 3 year, 18 to 24 in. QUICK CROP SIZE.....	\$ 4.00	\$16.00	\$35.00
" " 2 year, 12 to 18 in.....	3.00	12.00	24.00

JERSEY. Late. Fruit large, firm, keeping well, acid until dead ripe and of good quality. Tall, well shaped bush (5 to 6 ft.).

PEMBERTON. Late. Berries and clusters are very large and excellent in quality. Plants exceptionally productive and vigorous (5 to 6 ft.).

PIONEER. Midseason. Berries are very large, many of them measuring over 2 in. around. Bush low (4 ft.), globelike in form.

RANCOCAS. Midseason. Fruit large, light blue, of very good quality. Excellent producer, tending to overbear. Bush tall (5 to 6 ft.).

RUBEL. Late. Berries are sweet with a rich flavor. Has a very long fruiting season, beginning the forepart of July and lasting until August. Bush tall (5 to 6 ft.).

STANLEY. Midseason. Berries are most delicious in flavor of all Blueberries according to the Agricultural Experiment Station at Geneva, N. Y. Considered to be one of the most promising new varieties. Bush tall (5 to 6 ft.).

BLUEBERRY COLLECTION (Group No. 907)

6 Blueberry Bushes, 3 year, 18 to 24 in. (1 of each variety)
QUICK CROP SIZE, for only \$10.00 Postpaid.

GOOSEBERRIES AND CURRANTS

Gooseberries and Currants are fruits whose merits for the home garden and local market are not fully appreciated. They are easy to grow, and they occupy only a small amount of space. They may be grown on places too shady for other plants, thus permitting complete utilization of a limited garden area.

Our Gooseberries and Currants are self-fruitful. Plant them 4 ft. apart. They are very hardy. Heavy, annual crops are the rule, and strong, 2-year-old plants may produce some fruit the first year planted.

	Per 2	Per 10	Per 25
Strong Plants, 2 year, Transplanted.....	\$ 1.80	\$ 8.00	\$18.00

DOWNING GOOSEBERRY. A large, handsome fruit, green in color, thin skinned, tender, juicy, and sweet. An immense cropper, and free of mildew.

POORMAN GOOSEBERRY. Fruit dark red, large and very attractive. Until one is acquainted with the Poorman Gooseberry, one does not realize how delicious a Gooseberry may be. It requires a rich soil, and does not grow well on very light, sandy soils, where Downing should be preferred.

RED LAKE CURRANT. A new red Currant, far superior to all other varieties. Berries are unusually large, up to 1/2 in. diameter. The clusters are up to 4 in. long and are filled out to the top with 8 to 10 juicy melting berries on each cluster.

WHITE GRAPE CURRANT. White Currants are fine for dessert because of their mild flavor. You will like to eat them.

BLACKBERRIES AND BOYSENBERRIES

Our Blackberries and Boysenberries are self-fruitful. Plant them 3 ft. apart in rows 6 ft. apart.

	Per 10	Per 25	Per 100
Strong Plants, 1 year, No. 1.....	\$ 2.50	\$ 5.50	\$20.00

ELDORADO BLACKBERRY. The hardiest and sweetest Blackberry. Large berries, in large clusters.

THORLESS BOYSENBERRY. Immense berries, often 2 in. long, and almost seedless. Canes require winter protection.

RHUBARB

We have an excellent supply of extra heavy Rhubarb roots. You may cut a small crop this spring and they will produce their first full crop the following year. Rhubarb roots require well fertilized soil for best results. We suggest that you apply Ra-Pid-Gro (see page 4). Plant them 3 ft. apart.

	Per 2	Per 10	Per 25
Extra Heavy Roots, 2 in. up caliper, QUICK CROP SIZE....	\$ 1.00	\$ 4.50	\$10.00

MYATT'S LINNAEUS. The leading variety for commercial planting, excellent for home use. Bears stalks up to 2 ft. tall.

ASPARAGUS

It takes only a little room to grow your own Asparagus. 100 plants, set 1 ft. apart, (in rows 3 ft. apart) will provide an average family supply. Before you plant, fork the soil deeply, pulverize it, and open up flat-bottomed trenches 8 inches deep. Spread the roots out and cover with 2 or 3 inches of soil. As the season progresses, hoe shallowly to keep down the weeds, and gradually fill in all the trenches so the bed will be level again by fall.

	Per 50	Per 100	Per 250
Strong Plants, 2 year, No. 1.....	\$ 3.50	\$ 6.00	\$12.00

PARADISE. A new, rust-resistant variety of the Mary Washington type. Many stalks are 1 in. or more thick.

ENGLISH WALNUTS (Actual Size).

HARDY NUTS

English Walnuts and Black Walnuts are self-fruitful. However, they will bear earlier and heavier if you plant two of either one. Plant them 30 ft. apart. Chinese Chestnuts require cross-pollination. Plant two or more of them 15 ft. apart. Two different varieties of Filbert Nuts are required for cross-pollination to insure satisfactory crops. Plant at least one each of Barcelona and DuChilly 6 ft. apart.

	Each	Per 3	Per 10
Strong Trees	\$ 2.50	\$ 7.20	\$23.00

BARCELONA FILBERT NUT. The most dwarfing type of Nut tree, hardy in any section where Peach trees are grown. They grow shrub-like. Plant them in your shrub border for beauty and utility. Begin to bear the third year. Actual size, 3-4 ft. Maturity height, 8-10 ft.

DU CHILLY FILBERT NUT. Oval nuts. Actual size, 3-4 ft. Maturity height, 8-10 ft.

BLACK WALNUT. Fast growing, native tree, valuable for its timber and nuts. Actual size, 5-6 ft. Maturity height, 40-60 ft.

CHINESE CHESTNUT. A blight-resistant strain. Trees start bearing very young, usually the second year. The nuts are larger than those of the American Chestnut and are equally sweet. Actual size, 2-3 ft. Maturity height, 30-40 ft.

ENGLISH WALNUT. Propagated from trees which are hardy in western New York State. The parent trees located in this vicinity are more than 50 years old and produce regular crops year by year. Kernels large, fine flavor. Actual size, 3-4 ft. Maturity height, 40-50 ft.

NUT TREE COLLECTION (Group No. 908)

5 Hardy Nut Trees (1 English Walnut, 2 Chinese Chestnuts,
1 Barcelona Filbert, 1 Du Chilly Filbert),
for only \$12.00.

FAIRFAX STRAWBERRIES, outstanding for size and flavor.

STRAWBERRIES

GUARANTEED TO GROW AND TO BEAR

This year, we offer unusually strong Strawberry plants with long fibrous roots. Plant a bed of Strawberry plants at our risk. **We guarantee every plant to grow and to bear.**

All of our Strawberries are self-fruitful. Plant them 1 ft. apart in rows 2 ft. apart.

Gem Everbearing Strawberry plants will begin to bear 90 days after planting at the latest. June-bearing varieties will bear their first crop the following year.

	Per 50	Per 100	Per 1000
Everbearing Plants (Gem).....	\$ 3.50	\$ 6.00	\$30.00
June-Bearing Plants (Catskill, Dorsett, Fairfax, Premier)...	2.00	3.50	20.00

GEM. This Everbearing Strawberry will start bearing late this summer continuously until freezing weather. Large, well rounded berries with a rich sprightly flavor.

CATSKILL. Very large, productive, hardy and healthy. Rapidly becoming a leading variety.

DORSETT. Large berries, evenly matured. Does well on poor soil.

FAIRFAX. An excellent new variety, very large, long fruiting season. One of the best for home use because of its superb quality. It takes only 16 of the largest berries to fill a quart basket.

PREMIER. Perfectly flavored, smooth and large. The leading variety for commercial planting.

FAMILY STRAWBERRY GARDEN (Group No. 909)

This collection should yield an ample supply for an average family, for eating as well as for canning.

250 Strawberry Plants, well rooted (50 of each variety listed)
for only \$10.00 Postpaid.

If you do not want the entire collection we will supply 125 Strawberry plants (25 of each) for only \$5.50 Postpaid.

STERN-NEYRON—World's Largest Rose.

HYBRID PERPETUAL ROSES

GUARANTEED TO GROW AND TO BLOOM

Old-fashioned Roses, popular for their hardiness as well as for their large and very double blossoms, which make excellent cut flowers. Plant them 2 ft. apart. **THEY ARE GUARANTEED TO GROW AND TO BLOOM.**

	Each	Per 3	Per 10
Heavy Bushes, 2 year, field-grown, No. 1.....	\$ 1.00	\$ 2.85	\$ 9.00

MAGNA CHARTA. Very large double flowers, bright pink suffused with carmine, heavily perfumed. A profuse bloomer.

F. K. DRUSCHKI. Very large, snow white, double flowers, not fragrant. The magnificent blooms are borne profusely in spring and at intervals during the summer.

GEORG AHREND. Double pink flowers of immense size, well formed, and very fragrant. Blossoms are produced continuously all summer.

HUGH DICKSON Dark red, velvety flowers, very large, double, and very fragrant.

STERN-NEYRON. World's Largest Rose. Immense blooms of deep rosy pink, each flower measuring approximately 5 inches. Very double — more than 50 large petals. Extremely rich perfume. Stems are almost thornless. Produces an abundance of beautiful, fragrant roses in the spring and scattered flowers in the fall.

OLD-FASHIONED ROSE COLLECTION (Group No. 910)

5 Hybrid Perpetual Roses, Heavy Bushes, 2 year, field-grown,
No. 1 (1 of each listed) for only \$4.75 Postpaid.

EVERBLOOMING ROSES

GUARANTEED TO BLOOM IN 90 DAYS

Our Everblooming Roses are selected, 2 year, No. 1 bushes which will start to bloom in June and you will have lovely Roses until late fall. Each plant has already blossomed in the nursery. Each plant produced 15 or more Roses last summer. Each plant has been carefully examined and selected for finest quality and beauty of flower. Plant them 1½ ft. apart. THEY ARE GUARANTEED TO BLOOM IN 90 DAYS.

	Each	Per 3	Per 10
Heavy Bushes, 2 year, field-grown, No. 1.....	\$ 1.00	\$ 2.85	\$ 9.00

AMI QUINARD. Velvety blackish-crimson, very fragrant. An abundant bloomer.

BETTY UPRICHARD. The coppery buds open into flowers of unusual size and beauty. Inside of petals light salmon, with brilliant orange and carmine outside.

CALEDONIA. Very double, wax-white, large flowers. An abundant bloomer.

CHRISTOPHER STONE. Velvety-textured roses of vivid scarlet, deliciously scented.

CONDESSA DE SASTAGO. A marvelously colored Rose with large flowers of fiery copper-red inside and rich yellow outside.

EDITH NELLIE PERKINS. Salmon-rose flowers, outside of petals old gold.

EDITOR McFARLAND. Shapely buds and double, brilliant pink blossoms.

ETOILE DE HOLLANDE. The immense buds open into very double flowers of intense bright red with velvety sheen. Very fragrant and a free bloomer.

FRANCIS SCOTT KEY. Large and very double crimson flowers on tall stems.

GOLDEN DAWN. The large flowers are a clear unfading lemon yellow and very fragrant.

LUXEMBOURG. Buds long and pointed, with blooms of deep bronzy yellow, very full and lovely.

McGREDY'S SCARLET. Vivid rose-red, with a blazing scarlet sheen. Large flowers of perfect shape.

PICTURE. Velvety clear rose-pink, with undertones of salmon. Very double.

PINK RADIANCE. A universal favorite, producing an almost continuous supply of silvery to deep pink blooms of lovely form.

POINSETTIA. Bud long-pointed; large, double flowers of bright unfading scarlet. Vigorous, prolific bloomer.

RED RADIANCE. A deep rosy-red sport of Radiance with all its good qualities.

ROSLYN. Deep golden-yellow flowers, borne singly on long strong stems.

ROUGE MALLERIN. Long, pointed scarlet buds, opening into large blooms, very fragrant.

SISTER THERESE. Dark golden yellow, long pointed buds, marked red. Blooms freely.

TALISMAN. Brilliant red and gold buds, opening to well shaped blooms of scarlet orange and rich yellow.

EVERBLOOMING ROSE COLLECTION (Group No. 911)

20 Everblooming Roses, Heavy Bushes, 2 year, field-grown, No. 1
(1 of each listed) for only \$18.00 Postpaid.

If you do not want the entire collection, select just those you wish at
10 for \$9.00 Postpaid.

COUNTESS VANDAL ROSES.

PATENTED EVERBLOOMING ROSES

GUARANTEED TO BLOOM IN 90 DAYS

Each one will be a beauty spot in your garden. Plant them 1½ ft. apart. **THEY ARE GUARANTEED TO BLOOM IN 90 DAYS.**

	Each
Heavy Bushes, 2 year, field-grown, No. 1.....	\$ 1.50

COUNTESS VANDAL. (Plant Patent 38). Long-pointed buds and high-centered fragrant flowers of coppery bronze, suffused with soft gold.

CRIMSON GLORY. (Plant Patent 105). A beautiful crimson flower shaded deep red and mellowed by a velvety nap. Wonderful fragrance. Wherever rosarians congregate, Crimson Glory is always acclaimed the very best dark, velvety crimson-red Garden Rose for the United States.

ECLIPSE. (Plant Patent 172). Very long, slender, elegant yellow buds, opening to flowers with 25 to 30 golden yellow petals. Very fragrant.

FESTIVAL. (Plant Patent 545). A thornless Rose. Huge red blossoms on vigorous canes which are perfectly thornless.

MARY MARGARET McBRIDE. (Plant Patent 537). Deep coral-pink buds with gold base, opening to very double clear pink flowers.

EVERBLOOMING ROSE COLLECTION (Group No. 917)

5 Everblooming Patented Roses, Heavy Bushes, 2 year, field-grown, No. 1 (1 of each listed) for only \$7.50 Postpaid.

DWARF POLYANTHA ROSES

GUARANTEED TO BLOOM IN 90 DAYS

Produce small, double flowers in immense clusters. They grow around 2 ft. tall and make excellent small hedges, blooming all summer. Plant them 1½ ft. apart. THEY ARE GUARANTEED TO BLOOM IN 90 DAYS.

	Each	Per 3	Per 10
Heavy Bushes, 2 year, field-grown, No. 1.....	\$ 1.00	\$ 2.85	\$ 9.00

GOLDEN SALMON. Double salmon with a glow of gold.

KATHERINE ZEIMET. Double white blossoms.

IDEAL. Double dark scarlet-red flowers.

MRS. R. M. EINCH. Double rosy-pink blooms.

FLORIBUNDA ROSES

GUARANTEED TO BLOOM IN 90 DAYS

Floribunda Roses bloom in large clusters, often 50 or 60 large flowers together in one head, their persistent continuity of bloom and the heavy masses of their color affording a striking and permanent effect from June into late fall. They grow up to 3 ft. tall. Plant 3 or more of one variety in a group or as a border for a great color effect. Plant them 1½ ft. apart. THEY ARE GUARANTEED TO BLOOM IN 90 DAYS.

	Each	Per 3	Per 10
Heavy Bushes, 2 year, field-grown, No. 1.....	\$ 1.00	\$ 2.85	\$ 9.00

BABY CHATEAU. Double scarlet crimson flowers in great profusion. NEW. Very beautiful.

LAFAYETTE IMPROVED. Semi-double crimson-red flowers.

ELLEN POULSEN. Semi-double pink flowers.

POULSEN'S YELLOW. Semi-double yellow flowers.

FLORADORA. Double cinnabar-red touched with orange scarlet and geranium. Flowers formed like Camellias. NEW. A beauty.

RED RIPPLES. Double brilliant red. Petals have wavy, rippling edges. NEW.

CLIMBING ROSES

GUARANTEED TO GROW AND TO BLOOM

Plant these superior Northern field-grown climbers this spring. They'll produce hundreds of brilliant blooms. Their great clusters of gorgeous flowers, framed by luxuriant foliage, will glorify your porch, entrance, garage, fences. Truly no home is complete without their spectacular beauty. No other plant gives so much yet requires so little care and effort. Plant them 6 ft. apart.

They come to you with large, strong roots and with all the network of fibrous feeding roots intact. Their vigorous growth will amaze you. THEY ARE GUARANTEED TO GROW AND TO BLOOM.

	Each	Per 3	Per 10
Heavy Bushes, 2 year, field-grown, No. 1.....	\$ 1.00	\$ 2.85	\$ 9.00

CLIMBING AMERICAN BEAUTY. Large, fragrant flowers, double rosy-carmine, are produced in great abundance and are excellent for cutting.

DR. W. VAN FLEET. Long-stemmed, beautifully formed flowers of soft pink color.

PAUL'S SCARLET. The most beautiful red Climbing Rose. Its bright scarlet flowers are produced so abundantly that the plants are covered with hundreds of blooms. Paul's Scarlet Climbing Roses can be used as a flowering hedge. Planted without trellis or similar support they form a dense hedge about 4 ft. high, which is a mass of color in June.

PRIMROSE. Hardy yellow climber with large, double flowers in great profusion.

SILVER MOON. Creamy-white buds opening into semi-double white flowers with yellow stamens.

GOLDEN ROSE OF CHINA.

HARDY SHRUB ROSES

A collection of old-fashioned Roses, hardy in coldest sections and easy to grow. They grow 4 to 6 ft. tall at maturity and make beautiful hedges. Plant them 3 to 4 ft. apart.

	Each	Per 3	Per 10
Extra Heavy, Selected Bushes, 2 year, Field-grown, No. 1..	\$ 1.00	\$ 2.85	\$ 9.00

BELLE POITEVINE. A double pink Rugosa Rose, blooming in large clusters all summer.

F. J. GROOTENDORST. Clusters of bright red, very double flowers with fringed petals similar to a Carnation. Blooms all summer and succeeds everywhere. Combines the flowers and ever-blooming habit of the Polyánthas with the Rugosa vigor.

GOLDEN ROSE OF CHINA (*Rosa hugonis*). A beauty spot in June, when the graceful, arching branches are covered with single golden flowers, 2½ in. across.

HANSA. A Rugosa Rose with semi-double crimson flowers. Blooms continuously.

HARISON'S YELLOW. Semi-double flowers, bright golden yellow, sweetly fragrant, cover the branches in spring, making graceful long sprays of exquisite beauty.

PERSIAN YELLOW. Double golden yellow flowers in great abundance.

PINK GROOTENDORST. Clusters of deep pink flowers with fringed petals, blooming all summer late fall.

RUGOSA ROSE (*Rosa rugosa*). Produces single reddish-purple flowers from May until September and very large red and orange fruits.

HARDY SHRUB ROSE COLLECTION (Group No. 912)

8 Old-Fashioned Shrub Roses (1 of each) for only \$7.50 Postpaid.

FLOWERING SHRUBS (1)

Enhance the beauty and value of your home with these decorative plants of colorful splendor. Plant a variety so as to enjoy their magnificent display of flowering glory continuously as they bloom in succession from early spring until late fall. Many of them bloom the first year planted. Dwarf Red Spirea, Red Flowering Quince, Red-Leaf Barberry, Pink Honeysuckle, and White Spirea make excellent hedges. Plant shrubs 3 to 4 ft. apart. Height listed after name of variety indicates size at maturity.

Listed in order of ultimate height.

	Each	Per 3	Per 10
Heavy, 2 year Shrubs, 2 to 3 ft. and 3 to 4 ft.....	\$ 1.00	\$ 2.85	\$ 9.00

DWARF RED SPIREA (*Spirea Anthony Waterer*). 3-4 ft. Flat heads of red flowers almost all summer. A popular shrub which succeeds everywhere, also in partly shady places.

PINK SPIREA (*Spirea Billiardi*). 4-5 ft. Tall spikes of deep pink flowers in July and August when most other shrub blossoms have faded. Thrives everywhere even in dry places.

DWARF MOCKORANGE (*Philadelphus Bouquet Blanc*.) 4-5 ft. A graceful shrub with slender branches and a myriad of fragrant white flowers that make the plant look like a large bouquet in June and July.

RED-LEAF BARBERRY (*Berberis Thunbergi atropurpurea*). 4-5 ft. A colorful Barberry with yellow flowers in spring, brilliant red foliage throughout summer and fall, and red berries during winter. Plant in full exposure to sun for best color effect.

PINK BUTTERFLY BUSH (*Buddleia Charming*). 4-6 ft. Elegant long sprays covered with lovely pink blossoms throughout the summer and autumn.

PURPLE BUTTERFLY BUSH (*Buddleia Isle de France*). 4-6 ft. The same shrub with dark claret-purple flowers.

DUBONNET BUTTERFLY BUSH (*Buddleia Dubonnet*). 4-6 ft. A new dark wine colored Butterfly Bush with extra large spikes and individual flowers.

SNOWBERRY (*Symphoricarpos racemosus*). 4-6 ft. Large white berries cover the shrub in September and October. Does well in shady places.

BRIDALWREATH (*Spirea prunifolia*). 5-6 ft. This is the true Bridalwreath. Tiny, double, button-like white spring flowers by the thousand are born like garlands along the slender, graceful branches. Leaves turn orange-scarlet in fall.

RED FLOWERING QUINCE (*Cydonia japonica*). 5-6 ft. This is the old-fashioned Fire Bush. A gorgeous sight with its scarlet blossoms.

WHITE SPIREA (*Spirea van Houttei*). 5-6 ft. America's most popular shrub. Succeeds everywhere.

SWEETBRIAR ROSE (*Rose rubiginosa*). 5-8 ft. A charming shrub, unique by the sweet fragrance of its leaves, especially when wet. Flowers are single pink, followed by red fruits.

DEUTZIA (*Deutzia Pride of Rochester*). 6-8 ft. A splendid shrub which grows in sun or partial shade; at blooming time in June, a perfect mass of lovely double flowers of white tinged pink.

PINK WEIGELA (*Weigela rosea*). 6-8 ft. Beautiful, bell-shaped pink flowers, borne profusely along circling branches.

CHINA LILAC (*Syringa chinensis*). 8-10 ft. Slender arching branches bear large broad clusters of fragrant purple-lilac flowers. Different from any other Lilac and very attractive.

GOLDEN BELL (*Forsythia intermedia spectabilis*). 8-10 ft. Masses of bright yellow flowers before the leaves appear, sometimes before the snow is gone. You may cut branches any time after January. Place them in water and they will bloom indoors long before spring arrives.

WEeping FORSYTHIA (*Forsythia suspensa*). 8-10 ft. A Golden Bell with long, slender branches drooping gracefully to the ground, entirely covered with yellow blossoms early in the spring.

PINK WEIGELA. Heavy Shrubs, only \$1.00 each.

SWEET MOCKORANGE (*Philadelphus coronarius*). 8-10 ft. An old favorite with all gardeners. Fragrant cream-white flowers in May-June.

EUROPEAN CRANBERRY BUSH (*Viburnum opulus*). 10-12 ft. A shrub with white flowers and scarlet clusters of juicy berries. The fruit is tart and edible. Beautiful crimson foliage in fall.

PINK HONEYSUCKLE (*Lonicera tartarica rosea*). 10-15 ft. Strong grower. Covered in spring with pink flowers, in summer and fall with red berries.

PURPLE LILAC (*Syringa vulgaris*). 12-15 ft. The old-fashioned single Lilac, delightfully fragrant.

PINK LILAC (*Syringa villosa*). 12-15 ft. A late Lilac, producing beautiful clusters of pink flowers, extending the Lilac season for several weeks.

WITCH HAZEL (*Hamamelis virginiana*). 12-15 ft. The Witch Hazel produces curious bright yellow flowers late in the fall or even during the winter. The large leaves turn yellow, orange, or purple in the fall.

FRENCH PUSSY WILLOW (*Salix caprea*). 12-15 ft. Snow may still cover your lawn when you cut your first spring bouquets from your Pussy Willow shrubs. Soft and silvery, large catkins cover the bush for many weeks. Thrives in wet spots.

RUSSIAN OLIVE (*Elaeagnus angustifolia*). 15-20 ft. A fast growing shrub with silvery leaves and branches, and white berries. The silvery flowers, yellow inside, emit a spicy fragrance in spring. Thrives in poorest soil.

THE EVERBLOOMING SHRUB BORDER (Group No. 913)

By planting many different varieties your shrub border may be in bloom from early spring until late fall.

25 Flowering Shrubs (1 of each listed) for only \$20.00.

If you do not want the entire collection, select just those you wish at the following prices: 3 for \$2.85, 10 for \$9.00.

HILLS OF SNOW, a grand shrub, native in America. Single or in groups, it is a beauty spot wherever planted.

FLOWERING SHRUBS (II)

This is a collection of lovely shrubs, the finest you can buy. Their colorful flowers and splendid foliage will delight you. For lovelier landscaping, plant them around your home, especially in corners or along borders. Plant shrubs 3 to 4 ft. apart. Height listed after name of variety indicates size at maturity.

Listed in order of ultimate height.

	Each	Per 3	Per 10
Heavy, 2 year Shrubs, 2 to 3 ft. and 3 to 4 ft.....	\$ 1.50	\$ 4.20	\$13.00
SWEET SHRUB (<i>Calycanthus floridus</i>). 4-5 ft. A large-leaved shrub with spicy fragrant, chocolate colored flowers. Thrives well in shady location.			
RED WEIGELA (<i>Weigela Eva Rathke</i>). 4-5 ft. A fountain of crimson with its rich bell-shaped, ruby-red flowers covering the whole shrub.			
HILLS OF SNOW (<i>Hydrangea arborescens grandiflora</i>). 4-5 ft. This grand shrub is especially fine for shady places like the north side of a house. In mid-summer it is covered with immense rounded heads of white flowers.			
PINK ALMOND (<i>Amygdalus glandulosa</i>). 5-6 ft. A beautiful small shrub, bearing an abundance of small, double, rose-like flowers, closely set upon twigs before the leaves appear.			
BEAUTY BUSH (<i>Kolkwitzia amabilis</i>). 5-6 ft. A charming oriental shrub with bell-shaped pink flowers, completely covering the shrub in the spring. Plant in good soil, and do not expect too much bloom the first two years.			
ROSE TREE OF CHINA (<i>Prunus triloba</i>). 6-8 ft. This beautiful shrub is completely covered with double pink flowers resembling small roses in early spring.			
VIRGINAL MOCKORANGE (<i>Philadelphus Virginal</i>). 6-8 ft. A wonderful shrub with waxy semi-double flowers, the largest and most fragrant of all Mockoranges, blooming for a long season.			

PEEGEE HYDRANGEA. Heavy Shrubs, only \$1.50 each.

NANKING CHERRY (*Prunus tomentosa*). 6-8 ft. Masses of bloom, pink in bud, open a pure white, in early spring, before the leaves appear. An abundance of Cherry-like, brilliant red fruits covers this beautiful shrub in June.

PEEGEE HYDRANGEA (*Hydrangea paniculata grandiflora*). 8-10 ft. The immense cone-shaped blooms are white at first, then turn pink and bronze. Grows in sun or partial shade and is hardy everywhere.

WINGED BURNING BUSH (*Euonymus alatus*). 8-10 ft. Yellow flowers in May or June, followed by orange and red berries. Interesting corky bark. Leaves turning brilliant crimson in autumn.

SNOWBALL (*Viburnum opulus sterilis*). 10-12 ft. Hundreds of pure white balls cover this popular shrub which thrives in sun or partial shade.

AMERICAN SMOKE TREE (*Rhus cotinus*). 10-12 ft. One of the most beautiful and unusual plants. From mid-summer until autumn surmounted with masses of feathery panicles of flowers which give the effect of a cloud of smoke. Makes a unique specimen on the lawn.

WHITE FRINGE (*Chionanthus virginica*). 12-15 ft. Masses of loose panicles of feathery snow-white flowers in June make it an outstanding garden plant. Leaves turn golden yellow in autumn.

CORNELIAN CHERRY (*Cornus mas*). 15-20 ft. Clusters of yellow flowers cover this shrub long before spring arrives. Almost overnight the shrub bursts into blossom, later bearing red edible fruit resembling small cherries.

JUNE LILAC (*Syringa japonica*). 20-25 ft. This is one of the rarest kinds of Lilacs. The majestic clusters of yellowish-white flowers in June last for a long time.

FLOWERING SHRUBS (Group No. 914)

15 Shrubs of outstanding beauty (1 of each listed) for only \$19.00.

If you do not want the entire collection, select just those you wish at the following prices: 3 for \$4.20, 10 for \$13.00.

GOLDEN WEEPING WILLOWS.

SHADE TREES

Stately trees make a natural setting for your home that add priceless value as the years go by. You and yours, for generations to come, will delight in their cool summer shade, their magnificent beauty. There is no better investment than a few of these fine, sturdy trees. Plant them this spring, and before you know it, you'll bless the day you did. Height listed after name of variety indicates size at maturity.

Listed in order of ultimate height. Actual size of trees, 6-8 ft.

CRIMSON KING MAPLE (<i>Acer Schwedleri nigra</i>). 30-40 ft. A beautiful new Maple with deep red foliage continuously from spring throughout summer until leaves fall in autumn.....	6-7 ft.	7.00

FLOWERING VINES

For lasting charm and graceful beauty, plant these most popular Flowering Vines. Let them frame your doorways, windows, garage with thousands of brightly colored flowers.

These plants require almost no care. Once established, they last a lifetime. They will enhance the beauty and value of your home. Plant them 3 to 4 ft. apart.

	Each	Per 2	Per 10
Strong Plants, 2 year, No. 1.....	\$ 1.00	\$ 1.90	\$ 9.00

BITTERSWEET (*Celastrus scandens*). Native vine, producing bunches of orange-red berries, retaining their color over a long period. Popular for Winter bouquets. Plant two for pollination.

BOSTON IVY (*Ampelopsis veitchii*). Clings closely to any wall without support. The leaves grow very thickly overlapping each other, forming a tapestry of rare charm which changes in Autumn to beautiful shades of crimson and yellow.

EVERBLOOMING HONEYSUCKLE (*Lonicera heckrottii*). From June to October the plants are covered with hundreds of fragrant flowers, flame-scarlet outside and gold inside. Equally fine for porch, trellis, or fence. It is perfectly hardy, and thrives in sun or partial shade.

PURPLE WISTERIA (*Wisteria sinensis*). We offer grafted plants of the Chinese Wisteria which is characterized by large, fragrant flowers. They come into bloom very young and all the flowers in each cluster open at about the same time before any leaves appear.

SCARLET TRUMPET HONEYSUCKLE (*Lonicera sempervirens*). Although lacking in fragrance, the flowers of this vine are very showy, a bright scarlet and shaped like a trumpet. They appear in June and continue all Summer until late September, followed by attractive yellow berries. Thrives in sunny as well as shady locations.

SILVER LACE VINE (*Polygonum auberti*). The fastest growing hardy vine, usually growing 15 to 20 ft. the first year. From the middle of Summer until late Fall covered with thousands of white flowers.

SWEET AUTUMN CLEMATIS (*Clematis paniculata*). Fragrant, star-like flowers, creamy-white, an inch across, are produced in reckless abundance in September. Later, its feather-like seed pods create the illusion of a second blooming period. Grows 20-30 ft. with unusual rapidity.

TRUMPET VINE (*Bignonia radicans*). Orange-red, trumpet-shaped blossoms make it one of our most decorative vines. The flowers are 5 to 6 in. long. They appear in clusters for many weeks in Midsummer.

GROUND COVER VINES

These vines are recommended for planting on places where due to shade or unfavorable soil conditions nothing else will thrive. Plant them 3 ft. apart each way.

	Per 2	Per 10	Per 25
Strong Plants, 2 year, No. 1.....	\$ 1.20	\$ 5.00	\$12.00

HALL'S HONEYSUCKLE (*Lonicera halliana*). One of the most popular ground covers, also frequently grown over fences. Exceedingly fragrant buff flowers which attract bees and humming birds. The foliage is almost evergreen and keeps its deep green color until early spring.

VIRGINIA CREEPER (*Ampelopsis quinquefolia*). A splendid ground cover, especially on sandy soils where no other vegetation will grow. Unsurpassed in beauty by any other vine in autumn when the leaves turn to the most vivid tones of crimson, scarlet and orange.

STERN'S NURSERIES

GENEVA, NEW YORK

Dear Friend:

It's time to make plans for your garden and I hope you will find some helpful hints in the enclosed catalog.

Even if your garden space is small, you will find room to plant one or two of the amazing Stern-Neyron, World's Largest Rose. It is described on Page 17.

Be sure to plant some of the beautiful new Floribunda Roses such as Baby Chateau, Floradora, and Red Ripples which are listed on Page 20. Don't miss the thrill of seeing them in bloom this summer. They are guaranteed to bloom in 90 days.

Your garden will thrive better than ever before if you apply Ra-Pid-Gro, the miracle plant food. Please turn to Page 4.

If you have any problem regarding your garden, please drop me a line when sending in your order. I will be glad to answer to the best of my knowledge.

Plant one tree or bush or a long list of them. They will make your life happier than ever.

Cordially Yours

A handwritten signature in dark ink, reading "Otto Stern". The signature is written in a cursive, slightly slanted style.
